

Alternative baits

1. Half litre of dark beer plus two tablespoons of sugar or honey, mix together and add sufficient to trap or lure as/when required
2. Half litre of water, three tablespoons of sugar or honey, one cup cider vinegar, mix together and add sufficient to trap or lure as/when required
3. Half litre dark beer plus cup of blackcurrant cordial, mix together and add sufficient to trap or lure as/when required
4. 350ml sweet white wine and 20-230ml mint syrup
5. Orange juice
6. This bait for Asian hornets is a **protein-based bait, such as mashed fish diluted to 25% with water**. This bait should be prepared fresh and have a strong odor to attract the hornets. Adding an attractant or scent can further enhance its effectiveness *(be aware this is a protein bait and will rot so flies will lay eggs and it which produce maggots and smell)*
